REASONS FOR ALLOWANCE

1. This is an Examiner's statement of reason for allowance.
2. Regarding the claimed terms, the Examiner notes that a "general term must be understood in the context in which the inventor presents it." *In re Glaug* 283 F.3d 1335, 1340, 62 USPQ2d 1151, 1154 (Fed. Cir. 2002). Therefore the Examiner must interpret the claimed terms as found on pages 1-80 of the specification. Clearly almost all the general terms in the claims may have multiple meanings. So where a claim term "is susceptible to various meanings, . . . the inventor's lexicography must prevail" *Id.* Using these definitions for the claims, the claimed invention was not reasonably found in the prior art.
3. The closest prior art Brenner et al (U.S. Pat. No. 5,830,068) which discloses a system/method of providing a user interface for interactive wagering. However, Brenner singularly or in combination fails to disclose the recited feature:
4. As per claims 4, 14 and 21 " in response to identifying the first user, using the stored first wagering preference as a default selection in subsequent wagers in the at least one first subsequent user session, wherein the subsequent wagers are associated with at least a track selection, a race selection, a bet type selection, a bet amount selection, and a horse selection, and providing the first user with an opportunity to change the default selection for at least one of the subsequent wagers from the default selection to another selection".
